

Gaps Game

I can find gaps in number sentences.

Fill in the part-whole diagrams. Use counters to help you.
Use these diagrams to help you play the game.

Gaps Game

How to Play:

This is game for 2 or 3 players.

Each player fills in their part-whole diagrams first.

Place the number cards face down in the centre.

Each player has a game board.

Players take it in turns to turn over a number card. If it can be used on their board, the player keeps it. If not, they show it to the rest of the players and replace it face down.

The first player to fill all the gaps on their board is the winner.
