

Choose a plant and draw it. Think all the time about clear outlines.

Draw and colour a flower. Remember to make it over-sized!

Look carefully at the different colours you can see. Draw and colour a leaf using different shades of green.

Draw your plant again and add your over-sized flower.

1. Choose a plant and draw it in the centre of the page. Thinking all the time about clear outlines.

3. Choose your colours and begin to paint. Remember to use lots of green!

2. Choose a flower and add it to your plant. Remember to make it over-sized!

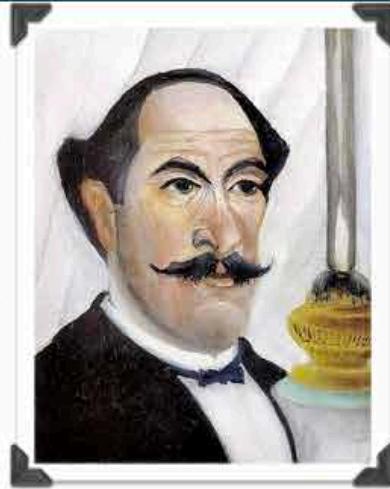

4. Continue to paint each piece of leaf and flower individually.

Choose a plant and draw it in the centre of the page. Think all the time about the different features and skills that Rousseau used in his paintings.

Henri Rousseau: Key Features

Don't forget to use these key features!

How to make a Flower Print Picture.

To make your flower print picture you will need:
plants,
leaves and flowers,
cartridge paper,
paper towel
a rolling pin.

1. Choose your first leaf and place it onto your cartridge paper in the position you want.

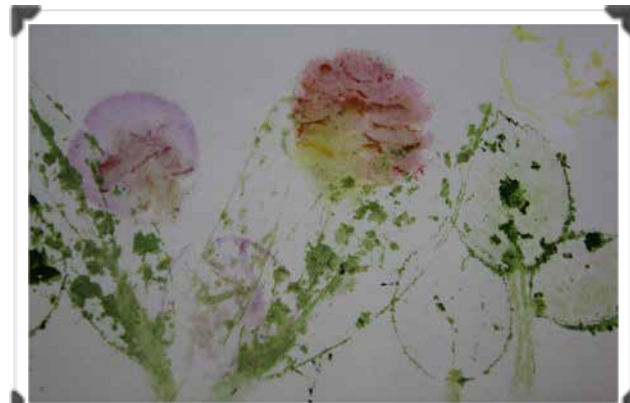

2. Place the kitchen towel over the top of your leaf, being careful not to move your leaf from its position.

3. Using a rolling pin tap forcefully on top of your paper towel until you are confident you have made a print.

4. Remove the paper towel before carefully peeling off the leaf to reveal the print.

5. Continue this process using different flowers and leaves until you are happy with your picture.
