Christopher Columbus and Neil Armstrong were both very important explorers who lived at different times. Put the Picture Cards in the correct column to show how life has changed from **Columbus** to **Armstrong** to **today**.

### Clothes

| Columbus (1490s) | Armstrong (1960s) | Today |
|------------------|-------------------|-------|
|                  |                   |       |

### Toys

| Columbus (1490s) | Armstrong (1960s) | Today |
|------------------|-------------------|-------|
|                  |                   |       |

### Transport

| Columbus (1490s) | Armstrong (1960s) | Today |
|------------------|-------------------|-------|
|                  |                   |       |

### Homes

| Columbus (1490s) | Armstrong (1960s) | Today |
|------------------|-------------------|-------|
|                  |                   |       |

Neil Armstrong was born in the USA in 1930.

Armstrong became a pilot when he was 16 years old.

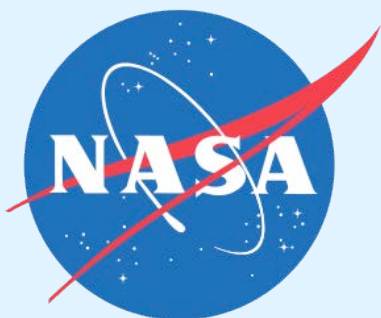

Armstrong knew how to fly a plane before he knew how to drive a car!

In 1949, Armstrong became a fighter pilot in the Korean war.

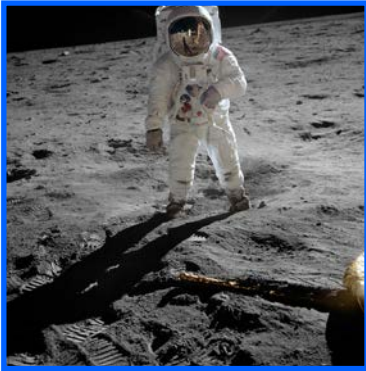

Armstrong became an astronaut in 1962. He joined NASA which trains astronauts to explore space.

Armstrong was part of the team of astronauts who were the first people to land on the moon.

Armstrong is famous as being the first person ever to walk on the moon.

This is the famous line Armstrong said when he first stepped onto the moon:

“That’s one small step for man, one giant leap for mankind.”

When Armstrong returned from the moon, he carried on being an astronaut and went on lots of other voyages.

When he was older, Armstrong taught other people about being an astronaut.

Neil Armstrong died in 2012. He was 82 years old.

Armstrong was buried at sea when he died. People around the world were sad that such an important man had died.
